

## Cookies & DOM Storage Cache leeren

Cookies oder Supercookies werden von Internet Browsern (skriptbasierend) zur Zwischenspeicherung von Informationen eingesetzt. Cookies speichern z.B. den Inhalt eines Warenkorbs oder persönliche Informationen. Daher ist es ratsam Cookies regelmäßig zu löschen.

Verschiedene Browser verschiedene Vorgehensweisen.

### Chrome Cookies löschen:

The screenshot shows the 'Einstellungen' (Settings) page in Google Chrome. The 'Browserdata löschen' (Delete browser data) option is highlighted with a red arrow. This option allows users to clear the cache, cookies, and other data.

The screenshot shows the 'Browserdata löschen' (Delete browser data) dialog box in Google Chrome. The 'Erweitert' (Advanced) tab is selected. The 'Daten löschen' (Delete data) button is highlighted with a red arrow. The dialog box lists several items to be deleted, including 'Browserverlauf', 'Cookies und andere Websitedaten', 'Bilder und Dateien im Cache', 'Passwörter', and 'Autofill-Formulardaten'.

Chrome Cookies deaktivieren:

The screenshot shows the 'Einstellungen' (Settings) page in Chrome. The URL is `chrome://settings/content`. A red arrow points to the 'Inhalteinstellungen' (Content settings) link in the left sidebar. Another red arrow points to the 'Cookies' section in the main list, which is described as 'Speichern und Lesen von Cookiedaten zulassen' (Allow saving and reading of cookie data).

The screenshot shows the 'Cookies' settings page in Chrome. The URL is `chrome://settings/content/cookies`. A red arrow points to the 'Blockiert' (Blocked) section, which has a toggle switch that is currently set to 'Blockiert' (Blocked). Other options shown include 'Lokale Daten nach Schließen des Browsers löschen' (Delete local data when closing the browser) and 'Drittanbieter-Cookies blockieren' (Block third-party cookies).

### Internet Explorer Cookies löschen:

The screenshot shows a web browser window for 'Der Windows Papst - IT Blog Essen'. The address bar shows the URL <https://www.der-windows-papst.de/>. The main content area displays the blog's header and a list of topics. Overlaid on the bottom right is the 'Internetoptionen' (Internet Options) dialog box. The 'Erweitert' (Advanced) tab is active. In the 'Browserverlauf' (Browsing History) section, there is a button labeled 'Löschen...' (Delete) with an arrow pointing to it. Other tabs in the dialog box include 'Start', 'Registerkarten' (Tabs), and 'Darstellung' (Appearance). The 'OK' button is visible at the bottom right of the dialog.

### Internet Explorer Cookies deaktivieren:

The screenshot shows the same web browser window for 'Der Windows Papst - IT Blog Essen'. The 'Internetoptionen' (Internet Options) dialog box is still overlaid, but the 'Erweiterte Datenschutzeinstellungen' (Advanced Privacy Settings) dialog box is now in the foreground. This dialog box is titled 'Cookies' and contains three radio button groups: 'Cookies von Erstanbietern' (First-party cookies), 'Cookies von Drittanbietern' (Third-party cookies), and 'Sitzungskookies immer zulassen' (Allow session cookies always). The 'Blocken' (Block) option is selected for both groups. The 'OK' button is visible at the bottom right of this dialog box. The main content area of the browser shows the blog's header and topics.
